

The American Institute of Architects Continuing Education System

AIA/CES Registered Provider Program Summary Handout

Provider: ASSA ABLOY
Door Security Solutions

Length: 1 Hour

Program #: DSS313

Credits: 1 LU Hour

Program: Unlocking the Mystery of
Electrified Hardware

HSW: Yes

Description: A comprehensive educational program focused on electrified door hardware, and how to best specify it to meet needs associated with security and convenience.

A/V Needed: Electrical power and a screen for the PowerPoint or slide presentation. (The CES facilitator supplies the laptop and projectors.)

Learning Objectives: At the conclusion of this program, participants will be able to:
1) Know how simple access control systems can be used in planning and specifying electrified hardware and how they affect building fire codes, accessibility standards, and life safety; 2) Specify the four vital components and the four operational elements required in every electrified hardware opening to achieve the desired function and level of security.

Target Audience: Architects, specifiers, owners and other design professionals in the non-residential market. The ideal audience size can be from 6 to over 50. This program meets every experience level with time designed into the program for questions and answers.

How Taught: The CES facilitator utilizes a PowerPoint or slide presentation to introduce the audience to the world of electrified hardware, starting with basic electrical concepts. Electrified features of door hardware will be discussed in-depth. Emphasis will be on the proper specifying of these items to increase the security and convenience of installed hardware, and their integration with access control systems. Samples will be available. Participants receive a reference sheet as a handout.

Facilitator Qualifications: All ASSA ABLOY Door Security Solutions CES facilitators have been trained on CES guidelines and presentation skills. In addition, they receive continuous in-depth training on Specifications and understanding the Building Design Process.

Costs: There is no cost to bring this program into your firm or chapter meeting.
